

143rd Annual Meeting of the Pharmaceutical Society of Japan (Hybrid of on-site and web-site based participation)

Poster preparation manual

How to prepare a poster using MS PowerPoint

Poster file creation process

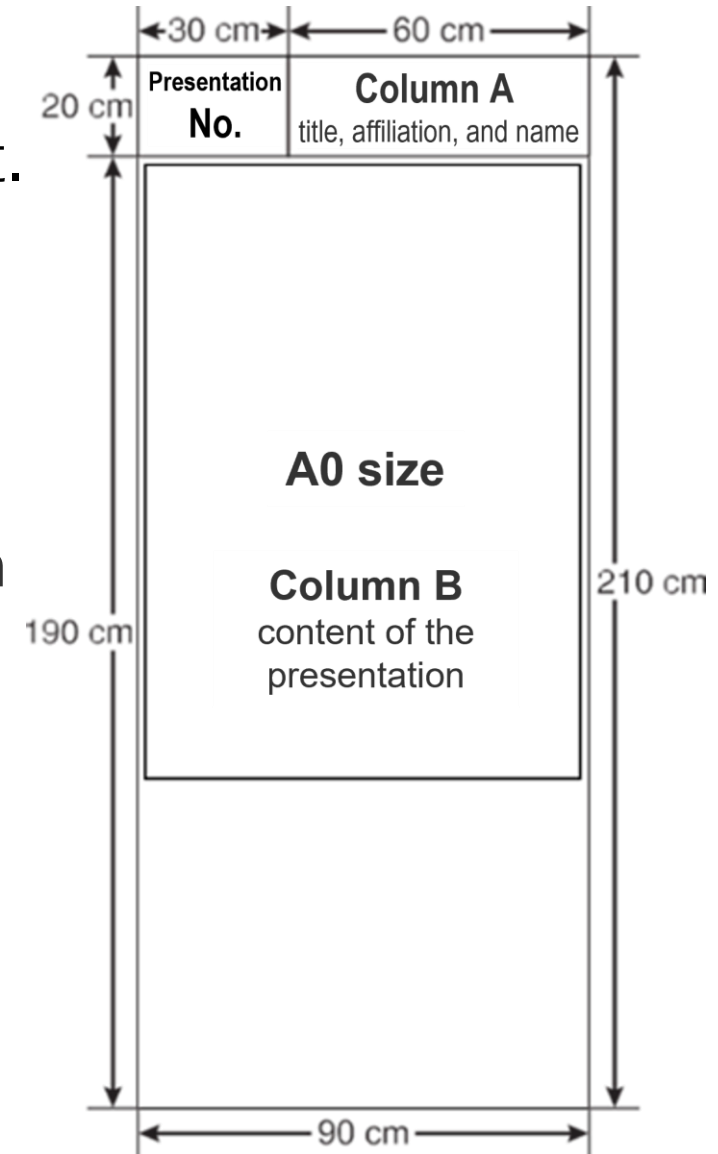

Poster size and layout

A file for poster presentations should use the following format.

- Write the title, affiliation, and name of the presenter in column A, and the content of the presentation (A0 size) in column B.
- You can also add information to the web version (PDF file for the poster presentation) for the paper poster to be displayed on the day of the symposium.
- Disclose Conflict of Interest (COI) .

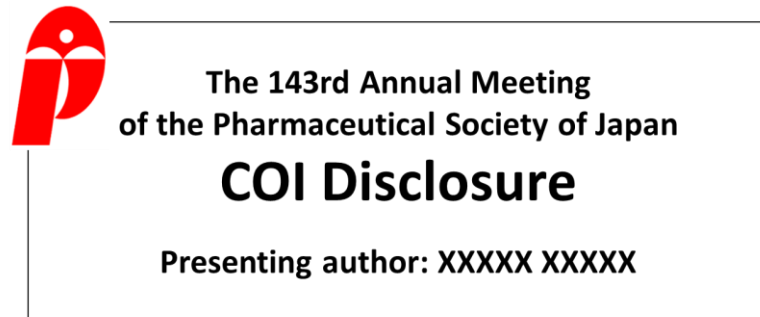

※ Note that the height of the poster board for the Interdisciplinary Session is 30 cm lower (H180).

Disclosure of Conflicts of Interest (COI)

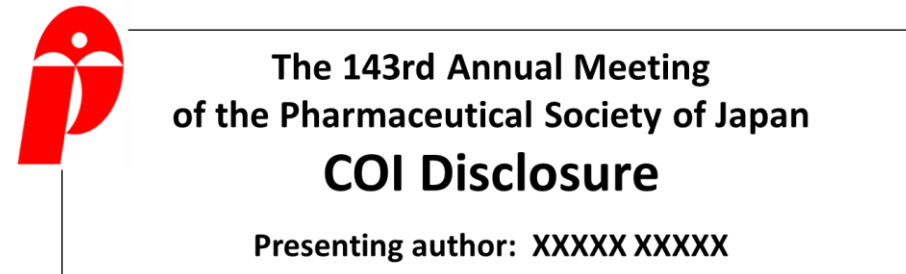

In accordance with the Conflict of Interest (COI) Management Regulations of the Pharmaceutical Society of Japan, the presenter is required to disclose conflicts of interest for all presentations at the 143rd Annual Meeting.

Example of disclosure in the absence of COI status

**I have no COI
with regard to the presentation.**

Example of disclosure in case of COI status

In connection with the presentation, I disclose COI with the following companies/organizations.

1. Employment/Leadership position/Advisory role: No
2. Stock ownership: No
3. Patent royalties/licensing fees: No
4. Honoraria (e.g. lecture fees): No
5. Fees for promotional materials (e.g. manuscript fee): No
6. Research funding/Scholarship donations: Yes (XXX Corporation)
7. Consulting fee for litigation, etc.: No
8. Endowed Chair: Yes (XXX Corporation)
9. Other remuneration: No

How to prepare a poster using MS PowerPoint (1)

【Windows】の場合

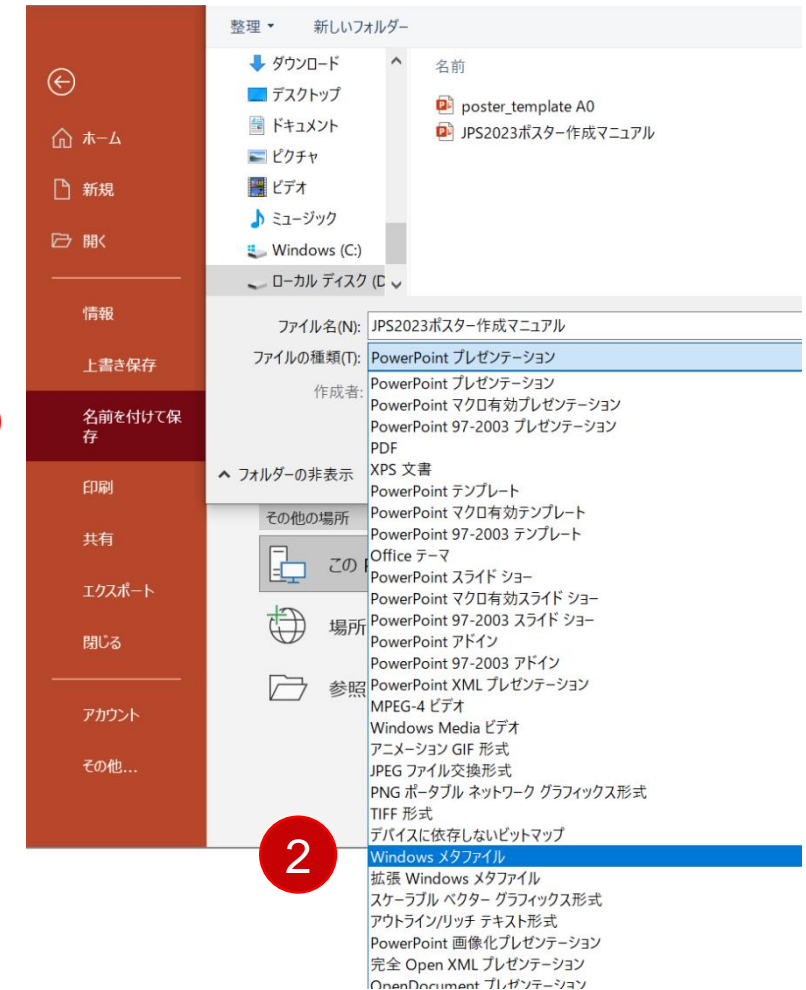

1. Use the template.
(Size : 90cm × 140cm)
2. Export each figure slide as a page-by-page image.

【Windows】

Export to "Windows Metafile (.wmf)" format

【Mac】

Export to "TIF (.tif)" format

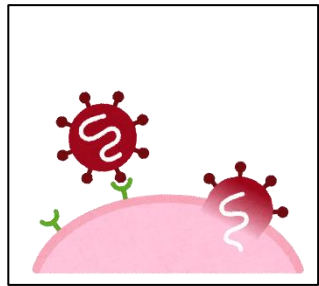

How to prepare a poster using MS PowerPoint (2)

3. Insert each page (image file)

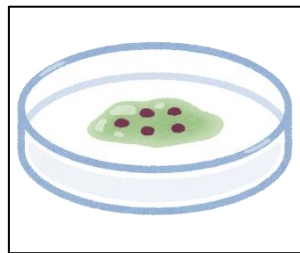

you have created into the template file.

Combine multiple slides into one

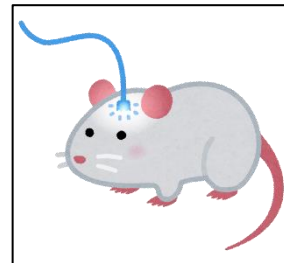

Insert files
